

Dear Friends,

I'm running for Mayor to bring positive change to Wasilla. I'm tired of "business as usual" in this town, and of the "Good ol' Boys" network that runs the show here. I know we can make government lean and more efficient! and I have a great love for Wasilla. My roots are here. I grew up here, I attended Iditarod Elementary School & was graduated from Wasilla High. The five years I spent outside earning my College degree solidified my love for and desire for Wasilla. I'm raising my children here and I plan to live here ~~until~~ as long as the Good Lord allows!

The decisions made at Wasilla City Hall affect ~~me~~ my kids today, and they will affect my kids twenty years from now. I'm not just changing ~~until~~ for another term until I can retire on the <sup>govt</sup> states system & head on out of here. I'm here for the long haul.

There is currently a sad state of complacency at City Hall. I have the energy, optimism and determination to lead us into pro-activity, versus ~~the~~ <sup>the</sup> current re-activity ~~made~~ made mine in.

Two years ago Wasilla voters, with the Mayor's support, overwhelmingly voted in favor of term limits for the Mayor. The City Council ~~adopted the~~ added to our municipal code that the Mayor could not serve more than two consecutive terms. Mayor Steindad ~~not~~ <sup>in addition to our</sup> allow this code, because he is "grandfathered" in, he can keep on running for Mayor! He's looking at his fourth term in office that is too long! He's ~~been involved in~~ <sup>Between Wasilla and Sitka politics</sup> government (he has become a mere politician. He has the "government" mind set, that creates constant growth in government. I believe in self-determination for our neighborhoods!

The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the origin of life is a problem of the first importance, and that it is one of the most interesting and important problems of the present day. The author discusses the various theories of the origin of life, and shows that the most probable theory is that of spontaneous generation. He also discusses the evidence in favor of this theory, and shows that it is supported by the facts of the case.

The second part of the paper is devoted to a detailed discussion of the evidence in favor of spontaneous generation. The author shows that the evidence is of the most convincing nature, and that it is supported by the facts of the case. He also discusses the various objections to this theory, and shows that they are all unfounded. The author concludes that the origin of life is a problem of the first importance, and that it is one of the most interesting and important problems of the present day.

Neighborhoods - You come to City Hall and ~~tell us what~~ <sup>say</sup> tell us what you want, what is right for your area... not the other way around! City Hall shouldn't be coming down your throats with "what's best for you" ... <sup>city hall</sup> ~~we~~ hires "experts" from outside to come tell us how to re-zone our city, to make it become a mini-Seattle!

I will not support any tax increase. Our sales tax generates ~~over~~ 2 million dollars more than what we had projected we'd be taking in when we sold ~~the idea~~ sales tax idea to the public four years ago. Since promising we'd spend the sales tax on a police dept. and on getting roads paved, we've been growing <sup>at</sup> city hall.

I will not support building a multi-million dollar, "new, state-of-the-art" city hall, as is called for in Wesley's newest Comprehensive plan.

I will not accept a raise, like the current mayor recently did! A \$4,000 a year pay hike, right after telling the Sr. Citizens Center we couldn't fund their full funding request!

I will put my foot down when dealing with a mayor, incumbent, and unethical conflict-of-interest in city council. Councilman John Hartwick's wife, Suzanne, is the Mayor's Secretary. This preclude Councilman Hartwick from voting on any personnel issue, because his wife's <sup>job</sup> ~~purse~~ is involved in personnel matters. This conflict takes away a voice of representation of the people! We do not have six councilmen now, we have five. The citizens public is getting ripped off.

I'll not run for election more than once. I believe in personal responsibility... NKT, Bai
